DETAILED ACTION

Drawings

1. The drawings filed on 03/09/06 are acceptable.

Allowable Subject Matter

2. Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance: It is agreed that the prior art of record fail to teach or suggest alone or in combination, the limitations: "a first slot antenna, the slot being realized in the ground plane in the form of a closed curve of perimeter equal to $k'\lambda_s$ where λ_s is the wavelength in the slot at the operating frequency and k' is an integer; and a second antenna radiating in a direction parallel to the substrate, the second antenna being positioned inside the curve forming the first antenna and being connected to a second supply line, the first and second supply lines being connected via a switching means to means for exploiting the electromagnetic waves" as claimed in claim 1. It is for this reason in combination with all the other limitations in the independent claim 1, that claims 1-12 are allowable over prior art of record.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
